NOTICE OF APPLICATION FOR REGISTRATION

TAKE NOTICE that the following trade marks have been accepted for registration. Any person wishing to oppose the registration of any of these marks, upon any of the grounds prescribed under Part 7 of the Act, may file Notice of Opposition in the prescribed form with the Registrar of the Commerce & Intellectual Property Office, within 3 months from the date of this advertisement.

YUVELLE

Applicant	JOHNSON & JOHNSON
Agent	Rosann N. Knights-Bollers
Address for Service	Regal Chambers, Regal Building, 2nd Floor, Middle Street, Kingstown, St Vincent
Application Number	53/ 2012
Filing Date	March 19, 2012
Class(es) 5:	Human pharmaceutical preparations.

Applicant	Daikin Industries, Ltd
Agent	Duane A. Daniel Chambers
Address for Service	Hinds Building, P.O. Box 757, Kingstown, St. Vincent
Application Number	111/ 2015
Filing Date	June 17, 2015
Class(es) 11:	Apparatus for lighting, heating, steam generating, cooking, refrigerating, freezing, drying, ventilating, water supply and sanitary purposes; air-conditioning apparatus and installations and parts and fittings therefor; air purifying apparatus and installations and parts and fittings therefor, dehumidifiers; air

deodorising apparatus; filters for air-conditioning; fans (parts of air conditioning installations); filtering installations (household or industrial); air valves for steam heating installations; refrigerating containers, refrigerant compressors; inverters being parts of air-conditioning apparatus; motorized fans for air conditioning.

DAVIDOFF

Applicant	Zino Davidoff SA
Agent	Suzanne A. Commissiong
Address for Service	S. E Commissiong & Co, Halifax Street, Kingstown, St Vincent
Application Number	3/ 2017
Filing Date	January 6, 2017
Class(es) 30:	Coffee, coffee extracts and coffee-based preparations; artificial coffee and artificial coffee extracts, coffee drinks, instant coffee, coffee capsules; tea, cocoa, rice; tapioca and sago; flour and preparations made from cereals; bread, pastry and confectionery; edible ices; sugar, honey, treacle; baking powder; salt; mustard; vinegar, sauces (condiments); spices; ice.

QUALCOMM

Applicant	Qualcomm Incorporated
Agent	Suzanne A. Commissiong
Address for Service	S. E Commissiong & Co, Halifax Street, Kingstown, St Vincent
Application Number	149/ 2018
Filing Date	October 15, 2018
Class(es) 9:	Computer hardware; computer software; central processing units (CPU); integrated circuits; microprocessors; microcontrollers; semiconductors; modems; sensors; battery chargers; accelerometers; applications processors; computer hardware accelerators; circuit boards; circuit board assemblies; data conversion circuits; data storage devices, namely transponder chips and tags and card packages containing same; development boards, evaluation boards and reference design kits for semiconductors, sensors and software; digital signal controllers; digital signal processors; direct digital synthesizers; earbuds; electronic access cards;

electronic identification cards; electronic labels, electronic stickers and electronic tags for identification and security purposes; electronic tickets; electronic wristbands; headphones; high power electronics, namely radio frequency (RF) amplifiers, high side switches and battery sensors; microcircuits; microcomputers; mobile phones; near field communication (NFC) technology-enabled devices; radio frequency transistors; user interfaces for electronic devices; wireless communication devices for recording, organizing, transmitting, receiving, manipulating, and reviewing voice, text, data, image, and audio files; computer hardware, software and firmware, central processing units (CPU), semiconductors, integrated circuits, microcontrollers, and analysis and trace, all for use in the development of stand-alone software programs used in devices such as network switches, engine control modules, cat-scan machines, industrial automation controllers, avionics and wireless handsets; computer hardware and computer software based development tools, namely, compilers, debuggers, integrated development environments, run control, event analysis and trace, all for use in the development of stand-alone software programs used in industrial, consumer and automotive applications; computer hardware and computer software for transferring, storing, converting and displaying medical device data; computer hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID and NFC chips and tags; computer software for charging smart phones, tablets, and mobile electronic devices; computer software for enabling functionality of safety and testing systems, apparatus and equipment; computer software for enabling functionality of sensors for use in automotive, consumer, industrial and medical applications; computer software for managing computer networks; computer software for tracking; computer software, hardware and chipsets for use with wireless communication apparatuses, consumer electronic devices, smart phones, digital cameras, IP cameras, drones, unmanned aerial vehicles (UAVS) and wearable mobile computers; computer peripherals for processing digital signals, for processing background data and information on computer operating systems, for tracking user activity and location, for enabling activation by speech and touch and for detecting sensory cues and launching applications that correspond to specific sensory cues and computer software, hardware and chipsets for use with these goods; computer software, hardware, and chipsets for streaming music and for

synchronizing audio speakers in consumer electronics devices; computer software, namely compilers, linkers, support software to assist in the development of stand-alone programs, and software for assisting in the development of object oriented software applications, such as database systems; computer software, namely operating systems, board support packages (BSPS), virtualization technology software, hypervisor software, embedded software, applications programming interface (API) software, software libraries used to create other computer software; applications software for automotive, consumer, health care, medical, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications, protocol stacks, configuration software, and optimization software; content filtering software, namely, computer software for controlling content made available to a user; control plane software; data plane software; data processing apparatus and software for enabling, controlling, managing and monitoring all aspects of a paperless payment and/or access system employing RFID (radio frequency identification) and/or NFC (near field communication) technology, including allowing users to recharge their payment accounts remotely; deep packet inspection software; downloadable computer software for developing computer hardware and software for chipsets for wireless devices; enterprise security software for use in gateway and other networking devices to provide network security; firewall software; integrated networking, security, and collaboration software; internet security software; intrusion detection and prevention software; load balancing software; VPN (virtual private network) operating software; integrated circuits, computer hardware and software for signal processing in wireless communication apparatuses, consumer electronics devices, portable media devices, mobile gaming devices, pocket computing devices, and smart phones; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; recording discs; computer network interfaces devices; electronic, electro technical and electromagnetic modules; data processing equipment; data storage apparatus; interfaces for computers; smart cards; smart card integrated circuits; RFID chips and tags; computer hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID chips and tags; contactless smart cards; dual interface smart cards; dual interface integrated circuits that provide a link between contactless cards and contact cards; writers and

readers for wireless transmission to and from transponder chips; electronic apparatus for writing and reading of wireless transmission to and from transponder chips; computer programs for controlling transmission of data to and reading of data from transponder chips; data processing machines for fare determination using transponder chips; encoded smart cards; computer hardware, software and peripheral devices used for access control and authentication purposes; wearable activity trackers; wearable computer peripherals; smartphones; wearable telecommunication apparatus; multicore processors; application-specific integrated circuits (ASICs); integrated circuits embedded with software; signal processors; digital signal processors (DSPs); vector processors; vector signal processors; communications processors; network processors used in network and telecommunications equipment; application-specific hardware accelerators; wireless baseband processors; base stations on a chip, namely wireless base stations on a chip; integrated circuits, namely system basis chips and systems on a chip (SOC); multicore microcontrollers; semiconductor chip sets comprised primarily of semiconductor chips; integrated circuit modules in the form of semiconductor packages and packaging, namely redistributed chip packaging (RCP), and systems-in-package (SiP); radio frequency (RF) power transistors; radio frequency semiconductors; sensors, namely, inertial sensors, pressure sensors, magnetic sensors, touch sensors all for use in automotive, consumer, and industrial applications; proximity sensors; radar sensors; capacitive sensors; acceleration sensors; gyro sensors; sensors for computer interfaces featuring software, firmware and electronic integrated circuit chips; sensor systems comprised of sensors, computer software, microprocessors, microcontrollers, and logic or wireless protocols for enabling functionality of sensors for use in automotive, consumer, and industrial applications; electronic test instruments for developing and testing microprocessor-based systems; semiconductor memories; semiconductor devices, microcontrollers, integrated circuits, circuit boards, chipsets, all for management of operating frequency, voltage and power, optimization of static and dynamic power, power management, power optimization or power reduction; semiconductors, sensors and software for use in automotive, consumer, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications; semiconductors and software for

use in healthcare and medical applications; semiconductors, sensors and software for use in wireless connectivity, battery management, smart grid, smart metering applications, engine control units (ECUs) and tire pressure monitoring systems (TPMS); microcontrollers, firmware, sensors, and radio frequency (RF) and analog circuitry devices for use with energy efficient wireless chargers; printed circuit boards namely evaluation boards and reference design kits consisting of software for semiconductors, sensors and software; semiconductors and software for use in portable medical devices, diagnostic and patient monitoring devices, therapy devices, and medical imaging devices; computer application software, namely, computer software for use in applications for multimedia, graphics video, audio and numerically intensive computations; computer network switching software; computer convergence network software; computer network collaboration software; quality of service software; network access software; networking software for operation of chipsets; networking software for content processing; computer software, namely, firmware, applications and development tools, for use in network content processing; failover prevention software; stateful packet inspection software; stateful application inspection software; enterprise security software; wireless radio controller software; command line management software; voice over IP software; video over IP software; networking and security software for use with unified threat management equipment, gateways, integrated access devices, routers, switches, controllers, base stations, hubs, and security appliances; utility software for facilitating computer use at remote locations and for facilitating communications among mobile users over networks; computer software for providing security to remote users and for implementing computer, software, and network security measures for remote users; component-based software modeling tool featuring a graphical user interface, automatic code generators and built-in knowledge-base for use in the rapid design, development, implementation, verification and optimization of embedded applications; software for use in developing other software titles; downloadable, searchable electronic publications, namely reference manuals, user guides, application notes and product specifications on the subject of semiconductors, sensors and software; user manuals in electronic format supplied with the foregoing.

38:     Providing information in the field of telecommunications and

telecommunications information relating to wireless communications and mobile technologies; consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks.

42: Providing information in the field of computers, computer software and computer systems; providing information in the field of design and development of computer data networking; providing information in the field of network security and computer security; design for others of integrated circuits, semiconductors, microprocessors, computer hardware and software, and communications software and networks; developing, designing and testing semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software, electro technical and electromagnetic modules and their parts and building elements, data storage apparatuses, interfaces, smart cards, controllers for smart cards, controllers for RFID chips and tags for others; computer software development in the field of mobile applications; design and development of wireless communications systems for transmission and reception of voice, data and video; design and development of battery charging technology; design and development of data networking systems; design and development of network security and computer security systems; design and development of computer hardware and software for the operation and control of drones; design and development of computer hardware and software for the operation and control of robots; design and development of computer hardware and software for the operation and control of automobiles; cloud computing featuring software for transferring, storing converting and displaying medical device data; developing wireless power transfer technology for use in charging vehicles; platform as a service (PAAS) featuring computer software platforms for use in developing, programming, building, and prototyping IOT (internet of things) devices; platform as a service (PAAS) featuring computer software platforms for wireless acquisition, transmission, conversion and storage of medical device data; providing technical information in the fields of semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software; consulting in the field of telecommunications technology; design and development of wireless communications systems for authentication purposes; providing temporary use of online non-downloadable software applications, development platforms, and development tools that enable software developers to develop,

program, build, and prototype software for integrated circuits, chips and data processing equipment; computer programming services; research and design of antennas for scanning, reading and interpreting RFID chips and tags; research and design of NFC (near field communications) apparatus, instruments and equipment; advisory services in relation to all the above.

IQOS

Applicant		PHILIP MORRIS PRODUCTS S.A.
Agent		Duane A. Daniel
Address for Service		Chambers, Granby Street, P.O. Box 757, Kingstown, St Vincent
Application Number		39/ 2019
Filing Date		March 20, 2019
Class(es)	9:	Batteries for electronic cigarettes; batteries for electronic devices that are used for heating tobacco; chargers for electronic devices that are used for heating tobacco; USB chargers for electronic devices that are used for heating tobacco; car chargers for electronic cigarettes; car chargers for devices that are used for heating tobacco; battery chargers for electronic cigarettes; charging docks and charging stations for electronic devices that are used for heating tobacco; charging docks and charging stations for electronic cigarettes; portable power supplies for electronic devices that are used for heating tobacco; portable power supplies for electronic cigarettes.
	34:	Wired vaporizer for electronic cigarettes and electronic smoking devices; tobacco, raw or manufactured; tobacco products, including cigars, cigarettes, cigarillos, tobacco for roll your own cigarettes, pipe tobacco, chewing tobacco, snuff tobacco, kretek; snus; tobacco substitutes (not for medical purposes); smokers' articles, including cigarette paper and tubes, cigarette filters, tobacco tins, cigarette cases and ashtrays, pipes, pocket apparatus for rolling cigarettes, lighters; matches; tobacco sticks, tobacco products for the purpose of being heated, electronic devices and their parts for the purpose of heating cigarettes or tobacco in order to release nicotine-containing aerosol for inhalation; liquid nicotine solutions for use in electronic cigarettes; electronic smoking devices; electronic cigarettes; electronic cigarettes as substitute for traditional cigarettes; electronic devices for the inhalation of nicotine containing aerosol; oral vaporising devices

for smokers, tobacco products and tobacco substitutes; smoker's articles for electronic cigarettes; parts and fittings for the aforesaid products included in class 34; devices for extinguishing heated cigarettes and cigars as well as heated tobacco sticks ; electronic rechargeable cigarette cases; protective cases, decorative covers and carrying cases for electronic cigarettes, tobacco heating devices and electronic smoking devices; in-car cradles and in-car holders for electronic cigarettes, tobacco heating devices and electronic smoking devices; containers for the disposal of used heated tobacco sticks; cleaners, cleaning preparations, cleaning utensils and cleaning brushes for electronic cigarettes, tobacco heating devices and electronic smoking devices.
