

Section 16(5)(b)

NOTICE OF APPLICATION FOR REGISTRATION

TAKE NOTICE that the following trade marks have been accepted for registration. Any person wishing to oppose the registration of any of these marks, upon any of the grounds prescribed under Part 7 of the Act, may file Notice of Opposition in the prescribed form with the Registrar of the Commerce & Intellectual Property Office, within 3 months from the date of this advertisement.

Applicant	CWC Communications Limited
Agent	Arthur F. Williams &/or Richard O.F. Williams &/or
Address for Service	Stephen Williams Williams & Williams Chambers, Lot 30, Middle Street, Kingstown, St Vincent
Application Number	236/2013

Filing Date
Class(es)

September 13, 2013

38: Telecommunication services; telecommunications network wholesaling services for the purpose of enabling customers to select and purchase telecommunications network capacity, including in relation to undersea systems, for resale; internet portal services; operation of a digitalized media platform for the exchange of messages and information; voice and data communications using Internet Protocol technology; telecommunications network service; providing telecommunication connections to a global computer network or the Internet or to databases thereon; providing user access to the Internet or to a global computer network; telecommunication of information (including Web pages), computer programs and any other data; providing telecommunication access services to a computer network or to the Internet; providing access to digital music websites on the Internet; transmission, and delivery of digital music, images, voice and data by telecommunications; electronic transmission of voice, data and information; voIP, local, long distance, international and toll free telecommunications services; automated voice response services; call routing services; frame relay services, ATM (asynchronous transfer mode) services; ISDN (integrated services digital network) services; electronic messaging and mail services; interactive electronic communication services; communication services by satellite, fibre-optic and computer terminal networks; computer aided, voice, fax, paging and e-mail message services; leasing and rental services in connection with communications apparatus and equipment; transmission of sound or images; broadcasting and transmission of radio, television and cable programmes; audio or video or Internet conferencing services; cable television broadcasting; providing telecommunications access to electronic data, databases, bulletin boards and publications on remote computers or via computer networks; leasing access time to a computer database; transmission of written and digital communication of mathematical and statistical data; operating chat rooms; advisory, information, consultancy services relating to the aforementioned services.

Applicant AT & T INTELLECTUAL PROPERTY II, L.P
Agent Rosann N. Knights-Bollers
Address for Service Regal Chambers, Regal Building, 2nd Floor, Middle Street,
Kingstown, St Vincent
Application Number 19/2016
Filing Date February 10, 2016
Priority claim: Priority date: August 14, 2015
Priority number: 86/725,293
Priority country: United States of America
Class(es) 9: Telephones; mobile telephones; cordless telephones;
telecommunications products, namely, gateway routers in the
nature of computer control hardware for use in wireless
communications systems; computer software for use in accessing
the global computer network; telephone accessories, namely,
telephone cords and batteries; electronic products, namely, digital
photograph receivers; television peripheral equipment, namely,
set-top boxes, remote controls and instructional manuals sold as a
unit; telecommunications hubs, switches, wireline routers,
wireless routers and integrated routers which include a modem;
digital subscriber line modems otherwise known as DSL
modems, cable modems and satellite modems that interface
directly with digital subscriber line otherwise known as DSL,
satellite data or cable broadband data services; network interface
card adaptors otherwise known as adaptors; RJ 45 transmission
cables; telephone line filters; telecommunication couplers;
telecommunication modular plugs; transceivers; wireless
transceivers; corded and cordless wireline teleconferencing
telephones; telephone answering machines; internet telephones;
wireless telephones; earphones and antennae for cordless and
wireless telephones; magnetically encoded credit cards;
magnetically encoded stored value cards; computer software used
to operate, manage and monitor security systems and home
automation devices; security cameras; smoke detectors; carbon
monoxide detectors; motion detectors; remote control units,

keypads and control panels for security systems and home automation devices; electronic door locks; electronic door openers and closers; home automation systems comprising wireless and wired controllers, controlled devices and software for light, HVAC, security, safety and other home monitoring and control applications.

- 16: Telephone directories; paper goods and printed matter, namely, tickets, posters, brochures, pamphlets and promotional materials for baseball games and other live entertainment; prepaid telecommunications calling cards not magnetically encoded.
- 35: Retail store services and online retail store services all featuring telephones, wireless hand-held devices for access to global computer networks, handheld mobile digital electronic devices and other consumer electronics, personal computers, tablet computers, carrying cases for telephones, wireless and handheld devices, wireless and corded headsets, chargers, batteries and home security and automation systems; providing online telephone directories containing business and personal contacts searchable by surname, town, zip code or street; advertising services, namely, promoting the goods and services of others by preparing and placing advertisements in directory listing databases accessed through a global information network; providing retail store information, shoppers guide information and business listings by electronic means; operation of telecommunications call center services for others, namely, call flow optimization, toll-free number optimization, command center mentoring, call center workforce management services, call center consolidation, call center measurements and speech processing assessment, and call center audits.
- 37: Repair services for telecommunications wiring, jacks and telephone equipment; installing and maintaining telecommunications systems and equipment for others; telecommunications network support services, namely, repair and maintenance; maintenance of telecommunication networks; installation of home security and automation systems.
- 38: Telecommunications services, namely, providing telephone communication and internet telephony services, providing a group of specialized telephone services with custom calling features and telephone calling plans; electronic voice messaging, namely, the recording and subsequent transmission of voice messages by telephone; providing multiple user dial-up, high-speed and dedicated access to the internet, global computer

networks, other computer networks, on-line services and bulletin boards; electronic transmission of messages, data, images, video and information via the internet; wireless transmission of voice, messages, data and information; high-speed access services and wireless access services to the internet, global computer networks, other computer networks, on-line services and bulletin boards; television transmission services; satellite television broadcasting services; telecommunications services in the nature of providing voice and data networking services, namely, providing digital and analog networking services to transmit data and voice; audio teleconferencing, video teleconferencing and web audio and video teleconferencing services; cellular and mobile telephone communications; telecommunications consultation; voice over internet protocol (VOIP) services; paging services; streaming of audio and video material on the internet; frame relay telecommunications services, virtual network telecommunications services; computer aided transmission of messages and images; private line voice, text facsimile, video and data telecommunications services; integrated services digital network (ISDN) telecommunications services; 800 telecommunications services; 900 telecommunications services; worldwide switched voice, data, video and multimedia transmission services; location independent personal communications services comprising mobile, voice, data and facsimile services; providing back-bone telecommunications network services to others to enable the display of content on worldwide global computer networks, other computer networks, online services and bulletin boards; the transmission over cable of entertainment services and voice, video, data and facsimile telephony services; instant office deployment, namely, providing an office-based system of voice, data and facsimile services to a remote location; communications services, namely, wireless mobile telephone calling, data and messaging service plans; fiber optic and telecommunication services, namely, high-speed access to the internet and global computer network, and wireless electronic, digital or IP transmission of voice, messages, graphics, images, data and information, as well as high definition multimedia streaming, television and video transmission services and IP television and IP video transmission; telecommunications services, namely, telephony services, Internet or IP telephony services, unified messaging and unified IP messaging services, high-speed access to the Internet and global computer network, and wireless electronic, digital or IP transmission of voice, messages, graphics, images, data and information; and television and video transmission services and IP television and IP video transmission services; telephone calling card issuing services;

and telecommunications services provided via prepaid telephone calling cards.

- 41: Entertainment services in the nature of baseball games, professional auto races, golf tournaments and related golfing events.
- 42: Hosting the web sites of others on a computer server for a global computer network; development and maintenance of web server software for others; consultation in the field of computers, data and networks; design and development of telecommunications network; telecommunications network strategy services namely, networking information technology strategy assessment, networking information technology strategy development, wide area network strategy development, network application development, web enablement, business continuity and disaster recovery, and the development of voice and multi-channel portals; telecommunications network design and network technology services, namely, virtual private network assessment, virtual private network token authentication; public key infrastructure development, local area network assessment, internet protocol network design, addressing, routing and load balancing, the development and design of advanced internet protocol, voice over internet protocol (VOIP) and quantity of service networks, token ring to Ethernet design, web site stress testing, data center transformation, server assessment, the development and design of messaging services and wireless local area networks, networking management center design, web performance monitoring and telework readiness assessments; telecommunications network deployment services, namely, project management, token ring to Ethernet to Ethernet migration; wireless local area network implementation, video conferencing implementation, and rapid deployment of telecommunications networks wide area network router deployment and local area network implementation; information technology security services, namely, firewall design analysis and implementation, internet security vulnerability assessments, enterprise network security assessment, and health insurance portability and accountability act compliance assessments; basic computer telephony integration; and design of interactive voice response systems and voice web browsers, customer profiling and routing systems.
- 43: Arena services, namely, providing facilities for sports, entertainment, tradeshows, exhibitions and conventions.

45: Security services, namely, the provision of intrusion detection scanning systems, the provision of rogue modem identification systems, security policy assessments; security system monitoring services; home security monitoring using wireless and wired sensors for glass breakage, motion detectors, cameras, alarms, shutoff valves, and gate, door and window contact sensors; computer services, namely, providing a web-based system and online portal for customers to remotely manage, administer, modify and control home security and home automation devices.
