TRADE MARKS ACT

Vol 9 No. 21

Section 16(5)(b)

NOTICE OF APPLICATION FOR REGISTRATION

TAKE NOTICE that the following trade marks have been accepted for registration. Any person wishing to oppose the registration of any of these marks, upon any of the grounds prescribed under Part 7 of the Act, may file Notice of Opposition in the prescribed form with the Registrar of the Commerce & Intellectual Property Office, within 3 months from the date of this advertisement.

Applicant	International Business Machines Corporation
Agent	Jadric J. Cummings
Address for Service	Barrister-at-Law, Cardinal Law Firm P.O. Box 401, 114 Granby St. St. Vincent & the Grenadines
Application Number	132/2022
Filing Date	July 15, 2022
Priority Claim	Date: February4,2022 Number:4840682 Country: France

Class(es)	Goods and/or Services
9	Computers; quantum computers; computer hardware and computer software; Computer hardware and computer software for information technology analysis and data management; computer hardware and computer software for application development; computer hardware and computer software for cloud computing; computer hardware and computer software for cognitive computing; computer hardware and computer software for artificial intelligence; computer hardware and computer software for

COMMERCE AND INTELLECTUAL PROPERTY OFFICE

blockchain technology; computer hardware and computer software for quantum computing and quantum programming; computer hardware, namely magnetic band units (data-processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact disks (audio-video), optical disks, computing couplers (data processing), diskettes, magnetic data carrier; computer hardware, namely video screens, scanners, printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors, computers, computer memories, computer peripherals; adapters for computers; components for computers; data processing equipment; data processing apparatus for data and information management; semiconductors; machine readable electronic media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; video tapes; electric batteries; computer chips; circuit boards; computer hardware, namely, communications computing servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; computer fax modem cards; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; power converters, namely, digital to analog, analog to digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards; integrated circuit adapters and smart card adapters; readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors; remote controls for computers; surge protectors and uninterrupted power supplies; point of sale terminals; computer servers; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; recorded and downloadable computer programs and computer software; software video games; computing operating system software and programs; computer software used for accessing a global computer network; computer software used for document management; computer software used for data base management; computer software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; computer software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer software for linking together computers and for enabling computing across a globally accessible network; computer software for managing hardware, software and processes that exist within an information technology environment; computer systems combining hardware and software for use in management and analysis of data and digital instructional manuals sold as a unit with these products; cloud computing system, namely network integrating computer hardware and software for dynamic provisioning, virtualization, and consumption metering of computer resources; recorded or downloadable cloud-computing software for deploying and

COMMERCE AND INTELLECTUAL PROPERTY OFFICE

managing virtual machines to a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which is capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; computer software for developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on machine-readable electronic media and relating to computers or computer programs; electronic publications; electronic publications on computer media, namely, user manuals, guides, brochures, information sheets, written presentations and teaching materials, in the field of computer, computer network, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing; software applications [apps] for Internet of Things [IoT] enabled devices; downloadable software for network connection, operation and management in particular for: cars, household appliances, multimedia devices, display screens, watches, heating, ventilation and air conditioning systems, in the Internet of Things (IoT).

- 11 Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes.
- 12 Vehicles; drones; apparatus for transport of persons or goods by land, air or water.
- 25 Clothing; footwear; headgear.
- 35 Advertising; sales promotional services (for third parties); business management and management consultancy; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for others; accounting; document reproduction; centralized data processing management; organisation of exhibitions for commercial or advertising purpose; business management consulting services and business consulting services; business development services; analysis of market research data and statistics; data processing services; data processing services on artificial intelligence; data processing services on cognitive computing; data processing services on cloud computing; data processing services on blockchain technology; data processing services on information management; data processing services on quantum computing and quantum programming; arranging and conducting trade show exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, telecommunications and electronic business transactions via a global computer network; business consulting services for artificial intelligence;

COMMERCE AND INTELLECTUAL PROPERTY OFFICE

business consulting services for computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; business consulting services for cloud computing; business consulting services for blockchain technology; business consulting services for quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for information technology; analyzing and compiling business data; systemization of data in computer databases.

- 38** Telecommunication services; delivery of messages by electronic transmission; communications by computer terminals; electronic mail; news and information agencies; telecommunication services and electronic messaging through data processing network; computer-aided transmission of data; telecommunication services for allowing commercial interaction in the field of global computer networks; providing multiple user access to information, data, communications, content, products and services via a global network and wireless communications devices; electronic transmission of data and documents via computer terminals; teleconferencing and web conferencing services; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information; providing on-line forums for transmission of messages among computer users; providing private and secure real time electronic communication over a computer network.
- 41** Education; entertainment; training; organisation and management of conferences, seminars and congresses; exhibition services for cultural or educational purposes; production of radio or television programs; sporting and cultural activities; educational services, namely, conducting classes, seminars, conferences, webinars and workshops in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, telecommunications and computers global networks; training in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, telecommunications and computers global networks; conducting entertainment exhibitions in the nature of information technology demonstrations; entertainment services, namely, providing on-line computer games; conducting entertainment exhibitions, namely, real-time athletic competitions via a global computer network; conducting entertainment exhibitions, namely, providing demonstrations on web-sites featuring museum exhibitions, sporting events, art gallery exhibitions, concerts, and musical recordings; editing of books and journals; shows and films production; leading of cultural or educative purposes exhibitions; booking of seats for shows.
